Place: OGMCOAL

Hello Ms. Bryant,
I am having trouble opening up the *.docx attachment that you sent. Would you please reply to this message (keeping the string of dated messages in tact) and resend the petition as either a WORD or Word Perfect document?
Thank you,

Priscilla Burton, CPSSc

Thanks so much for having the informal conference and listening to the concerns and observations of the residents in Alton and on or along Highway 89. The attached petition request needs to be addressed prior to final permitting for this coal application and we thank you, in advance, for do so.
